

AVAYA PHONES

CHOOSE THE RIGHT PHONE FOR YOUR WORK

From business desktops to conference room tables, explore feature-rich, high audio quality phones. Find the right phones for your users in every location, at every level, in every role.

Select an IP Deskphone that offers crisp audio, low power requirements, customization options, and solid performance. Your new 9600 Series IP Deskphone simplifies both traditional and advanced features with a large color touch screen and easy interface. Try an IP DECT Handset, which uses the most sophisticated wireless technologies, to roam the building or campus and still stay connected and accessible.

In the conference room, collaborate better with a phone designed for intuitive use by power users as well as occasional visitors. Plus, your Avaya B100 Series phone delivers superior sound- that means everyone can hear what's being said.
